

Test Engineer

Intersoft Electronics is a Belgian engineering company active in the domain of air traffic control (ATC) and air defence radar. It is our mission to create and deliver cutting edge solutions in this field and enable our customers to achieve comprehensive and reliable radar coverage leading to safer airways. Our products and services are used worldwide, supported by our global presence with subsidiaries in Australia, the US and China. Our "**Radar Solutions**" division manufactures hardware for radar manufacturers, air traffic service providers and aviation authorities. Radar Solutions is currently looking for a:

TEST ENGINEER

FUNCTION DESCRIPTION

- NGSP = Next Generation Signal Processing: our family of state-of-the-art electronic products used in existing and new radars.
- You develop a thorough understanding of our NGSP product line, gradually taking full ownership.
- Initially, you maintain existing and develop new tests.
- You work closely together with our Test Lead, who implements your tests in our test framework.
- You also work closely together with our Test Tool Developer, who maintains our test framework.
- You follow up quality issues, aid in troubleshooting, revise test procedures and propose hardware changes whenever needed.
- Together with your colleagues, you strive to meet or exceed the quality objectives of Radar Solutions.

PROFILE

- Minimum degree : master in electronics or equal through experience
- Affinity with electronics hardware
- Experience with test equipment (oscilloscope, waveform generator, multimeter...)
- Quality minded
- Must be versatile and flexible
- Good computer skills (Windows, Word, Excel)
- Knowledge of English
- Some practical knowledge of LabVIEW would be a plus
- Long term commitment

OUR OFFER

You will join our ISO9001 certified Radar Solutions division and work in a hightech test and production environment. As a test engineer, you fulfil a critical role in assuring the quality of our manufactured products. Depending on your skills, expertise and ambitions, you will get the opportunity to help grow the company.

Your salary will be competitive and evolve according to your experience, commitment and results.

Please send your CV and a letter of motivation to jobs@radar-solutions.be.
