Intersoft Electronics is a Belgian engineering company active in the domain of air traffic control (ATC) and air-defence radar. It is our mission to create and deliver cutting edge solutions in these fields and enable our customers to achieve comprehensive and reliable radar coverage leading to safer airways. Our products and services are used worldwide!

Software Developer

Python

Are you someone who does not shy away a challenge? Like to have fun? Work in a team of driven and committed colleagues? Intersoft Electronics has it, a place to boost your life!

What will you do as software developer?

You will join the engineering department working in a challenging environment. As a member of the product development team, you will focus on software development, but hey, the sky is the limit… no boundaries.

Your talent

As a Master of Computer Science or similar you can design Software Applications based on use cases and requirements managed in Jira.

You can express this design in UML and consider design principles such as SOLID.

Next, you're able to transfer this design as a team effort into an application with focus on Python, but knowing LabVIEW or C(++) is an advantage, respecting coding rules and clean code principles.

Using GIT to control the development process is one of your habits, reviewing the work of your colleagues and vice versa sounds normal.

Our offer
- Congestion-free working environment, flexible working hours and the option to work up to 2 days at home
- Cool business activities with nice colleagues
- A varied job in a stimulating, high-tech working environment
- Opportunities to develop and learn to your fullest
- Permanent position with a market-based salary, supplemented with company car, group insurance, meal vouchers, …

Interested?

Please send your CV and a letter of motivation to hr@intersoft-electronics.com

For more information about this function or selection procedure you can contact us at the same address mentioned above.

Your talent is more important than your gender, orientation, origin, age, or disability.
