

Join Intersoft Electronics – Elevate Your Career!

At Intersoft Electronics, we're at the forefront of engineering excellence, specializing in air traffic control (ATC) and air-defence radar solutions. Our mission is to deliver cutting-edge solutions that ensure comprehensive and reliable radar coverage, making airways safer worldwide. We're on the lookout for a passionate and experienced:

Hardware Developer - Electronics

Why Choose Intersoft Electronics?

Are you someone who thrives on challenges, values teamwork, and enjoys a dynamic work environment? At Intersoft, we offer more than just a job – it's a place to boost your life and make a real impact.

Your Role: Electronics Hardware Design Engineer

Join our vibrant engineering hardware department and immerse yourself in a challenging yet rewarding environment. As a key team member, you will focus on designing and developing PCB assemblies, pushing boundaries from DC to RF. The sky is not the limit; innovation knows no boundaries.

Your Talents:

As a Master of Electronics Engineering with a minimum of 5 years of experience, your expertise shines in:

- Designing comprehensive block diagrams based on technical requirements managed in Jira, incorporating inputs from the system design group and feedback from colleagues.
- Translating block diagrams into meticulous schematic designs using Altium, adhering to the company's design rules and best practices.
- Taking ownership of documentation, configuring management in our PLM system, tracking your work in JIRA, and detailing specifications and acceptance criteria for the PCB assembly.
- Verifying the correct functioning of your designed boards using measurement tools such as an oscilloscope and spectrum analyzer.
- Writing test firmware and/or Python scripts to ensure optimal performance.
- Actively participating in the team's review process, offering constructive feedback on your colleagues' work and receiving feedback on yours.

What We Offer:

- Congestion-free working environment with flexible hours, including the option to work up to 2 days at home.
- Engaging team activities with friendly colleagues.
- A diverse job in a stimulating, high-tech working environment.
- Opportunities for continuous development and learning.
- Permanent position with a competitive, market-based salary, supplemented with a company car, group insurance, meal vouchers, and more.

How to Apply:

Excited about the prospect of joining us? Send your CV and a letter of motivation to jobs@intersoft-electronics.com. For additional information about the position or the selection procedure, feel free to reach out to us at the same address mentioned above.

At Intersoft Electronics, your talent matters more than anything else - we embrace diversity.
