

Intersoft Electronics is a Belgian engineering company active in the domain of air traffic control (ATC) and air-defence radar. It is our mission to create and deliver cutting edge solutions in these fields and enable our customers to achieve comprehensive and reliable radar coverage leading to safer airways. Our products and services are used worldwide!

## System Engineer

Are you someone who does not shy away a challenge? Like to have fun? Work in a team of driven and committed colleagues? Intersoft Electronics has it, a place to boost your life!

### What will you do as a System Engineer?

As a system engineer, you will join the Systems and Technology department working in a challenging environment. As member of the team, you will focus on the definition, design and implementation of the system architectures. You will follow-up relevant technology developments from which you will initiate and take part in R&D projects. By working closely together with our customers and product managers, you will enable the continuous improvement of the products and architectures.

### Your talent

- Master in engineering or equivalent through experience
- Experience in system level design and conceptual thinking is a plus.
- You have a technical background.
- You communicate fluently in English.

### Our offer

- Congestion-free working environment, flexible working hours and the option to work up to 2 days at home.
- Cool business activities with nice colleagues
- A varied job in a stimulating, high-tech working environment
- Opportunities to develop and learn to your fullest
- Permanent position with a market-based salary, supplemented with company car, group insurance, meal vouchers, ...
