

## Elevate Software Excellence as a Software/System Test Engineer at Intersoft Electronics!

At Intersoft Electronics, we're at the forefront of engineering excellence, specializing in air traffic control (ATC) and air-defence radar solutions. Our mission is to deliver cutting-edge solutions that ensure comprehensive and reliable radar coverage, making airways safer worldwide. We're on the lookout for a passionate:

### Junior Software/System Test Engineer

Are you passionate about ensuring the quality and reliability of software solutions in a high-tech environment? Intersoft Electronics, a leader in air traffic control and air-defence radar solutions, is seeking a meticulous Software/System Test Engineer to join our team and contribute to the seamless functionality of our innovative products.

#### Your Role: Junior Software/System Test Engineer

As an integral part of our V(erification) and V(alidation) team, you will be responsible for designing and executing comprehensive test plans to validate the functionality and performance of our software and systems. Your attention to detail and systematic approach will play a crucial role in maintaining the high standards of our cutting-edge radar solutions.

#### Your Talents:

- Experience as a Software/System Test Engineer with a track record of successful test implementations is a plus, but motivation and will to learn is the most important!
- Minimal bachelor's degree in software or electronics.
- Strong analytical and problem-solving skills to identify and address software issues.
- Proficiency in creating and executing test cases, scripts, and scenarios.
- Knowledge of testing methodologies, tools, and best practices.
- Collaborative mindset to work closely with software developers and cross-functional teams.

#### What We Offer:

- Congestion-free working environment with flexible hours, including the option to work up to 2 days at home depending on the job content.
- Engaging team activities with friendly colleagues.
- Varied job in a stimulating, high-tech working environment.
- Continuous opportunities for personal and professional development.
- Permanent position with a market-based salary, supplemented with company benefits including a car.

#### Interested?

Ready to ensure the reliability of radar solutions through meticulous testing? Send your CV and a letter of motivation to [jobs@intersoft-electronics.com](mailto:jobs@intersoft-electronics.com). For more information, contact us at the same address.

At Intersoft Electronics, your commitment to software excellence is crucial - join us in shaping the future of radar technology!

*Your talent matters more than anything else - we embrace diversity.*
