

Shape Digital Innovation as an HDL Developer at Intersoft Electronics!

At Intersoft Electronics, we're at the forefront of engineering excellence, specializing in air traffic control (ATC) and air-defence radar solutions. Our mission is to deliver cutting-edge solutions that ensure comprehensive and reliable radar coverage, making airways safer worldwide. We're on the lookout for a passionate and experienced:

HDL Developer

Are you enthusiastic about pushing the boundaries of digital design in a high-tech environment? Intersoft Electronics, a leader in air traffic control and air-defense radar solutions, is seeking a skilled HDL Developer to join our dynamic team and contribute to the advancement of cutting-edge radar technology.

Your Role: HDL Developer

As a key member of our hardware development team, you will be at the forefront of digital design, working on the development of Field-Programmable Gate Arrays (FPGAs) and Hardware Description Language (HDL) programming. Your expertise will be instrumental in bringing innovative solutions to life, enhancing the functionality and performance of our radar systems.

Your Talents:

- Proven experience as an HDL Developer with a focus on FPGA development.
- Proficiency in Hardware Description Languages such as Verilog or VHDL.
- Experience in designing and implementing complex digital systems and algorithms.
- Familiarity with FPGA development tools and methodologies, more specific Vivado Development Environment
- Collaborative mindset to work closely with hardware and software engineers.

What We Offer:

- Congestion-free working environment with flexible hours, including the option to work up to 2 days at home depending on the job content.
- Engaging team activities with friendly colleagues.
- Varied job in a stimulating, high-tech working environment.
- Continuous opportunities for personal and professional development.
- Permanent position with a market-based salary, supplemented with company benefits including a car.

Interested?

Ready to shape the digital future of radar technology? Send your CV and a letter of motivation to jobs@intersoft-electronics.com. For more information, contact us at the same address.

At Intersoft Electronics, your expertise in HDL development matters – join us in redefining the possibilities of radar systems!

Your talent matters more than anything else - we embrace diversity.

Together we make the sky safer
