

At InterSoft Electronics, we're at the forefront of engineering excellence, specializing in air traffic control (ATC) and air-defence radar solutions. Our mission is to deliver cutting-edge solutions that ensure comprehensive and reliable radar coverage, making airways safer worldwide. We're on the lookout for a passionate:

Medior System Administrator

As a Medior System Administrator, you will be a key contact within our IT team. You will manage our IT infrastructure and provide support to colleagues for the more complex IT challenges.

Your responsibilities:

- Full management of clients, users, servers, and applications.
- Ensuring the security of emails and certificates.
- Server management, network management, and optimization of cloud services.
- Actively monitoring and resolving IT issues via Jira or Teams.
- Advising on and implementing improvements in our IT systems.

Your skills:

- You hold a bachelor's degree in IT or system administration.
- At least 2 years of relevant experience as a System Administrator.
- Strong knowledge of server and network management, Windows (desktop/server), Active Directory, and M365.
- You communicate fluently in Dutch and English.
- You are precise, proactive, and solution oriented.

What we offer:

- A challenging role where you can apply and further develop your expertise.
- Flexible working hours and the possibility of hybrid work.
- A high-tech work environment with room for initiative and innovation.
- A competitive salary package, complemented by additional benefits such as meal vouchers, group insurance, a company car, etc.
- A supportive team that values collaboration and knowledge sharing.
